

**TROY RESOURCES
GUYANA INC**

16 September 2014

To whom it may concern

This is to inform that Exploservice Co. Ltda, from Argentina, has been appointed by Troy Resources Guyana Inc. to provide drill and blast services on its Karouni Project in Guyana.

Troy Resources Guyana Inc. is a wholly owned subsidiary of Troy Resources Ltd, an Australian exploration and mining company since 1987 and operator of 2 mines in South America one in Brazil and the other in Argentina. Troy has operated in Brazil since 2002 and to date constructed and operated 2 gold mines with several open pits and underground operations. The Argentinean operation is a gold/silver mine sited in San Juan and is now in its 4th year of operation. Troy is listed on the Australian and Toronto stock exchanges and the share-holder base is Global.

The Karouni project will be processing 1,000,000 ton/year and Exploservice will be feeding the plant with approximately 300,000 cubic meters per month of blasted material and for such will be sourcing the required equipment.

Exploservice to achieve the targets imposed by Troy must start their operations in Guyana no later than end of October 2014.

Sincerely yours,

Jaime Altmann
Finance and Admin Manager
